

RESPIRE CARE AVAILABLE

If you need help from a carer every day, there may be times when you need to have a short stay in an aged care home. This is called 'Residential Respite Care', and may be on a planned or emergency basis. Respite care provides accommodation to support you for a short period of time. You may use this type of service if your carer will be away, or is unwell or unable to provide care for any other reason. Once your carer is back, you will return home.

To access Respite Care you will need to undergo an assessment (see ASSESSMENT PROCESS below).

ASSESSMENT PROCESS

Before accessing any government funded aged care services, you must have a My Aged Care assessment. This is completed by a member of the Aged Care Assessment Service (ACAS).

The assessment is normally organised through your doctor, another health professional or directly through the ACAS Team. The assessor visits you at home or hospital to discuss the assessment with you and your family.

An aged care assessment:

- confirms your eligibility for entry into Commonwealth Funded Aged Care
- determines your care needs and what types of care and services you may be eligible for.

Having an ACAS assessment does not mean you have to enter a residential aged care home, but not having one will delay the process should you need care.

Our team of dedicated aged care professionals reflects the mission and values of Nazareth Care, and provides a safe, engaging and caring environment for residents.
