

Nazareth Care Charitable Trust - Gender Pay Gap Reporting

Introduction

In accordance with Government's Gender Pay Gap Legislation, it is required for employers of 250 or more employees to publish statutory calculation outlining the pay gap between male and female employees. This statement outlines the relevant information collected on 5th April 2021.

Organisational Context

Nazareth Care Charitable Trust is a charity responsible for operating 12 care homes, 2 retirement villages and a day nursery which are operated across England, Scotland and Wales. On both full and part time contracts, 899 staff are employed by the charity.

Mean and Median pay and bonus information

Overview

The mean pay gap is the difference between average hourly pay of men and women. The median pay gap is the difference between the midpoints in the ranges of hourly pay of men and women. It takes all earnings in the sample, lines them up in order from lowest to highest and the median is the mid-point.

Mean Gender Pay Gap	16.9%
Median Gender Pay Gap	5.9%
Mean Bonus Pay Gap	0%
Median Bonus Pay Gap	0%

Breakdown

	Males in Quartile	Females in Quartile
Lower Quartile	17.2%	82.8%
Lower Middle Quartile	12.7%	87.3%
Upper Middle Quartile	11.2%	88.8%
Upper Quartile	30.6%	69.4%

In line with industry trends, the majority of the workforce are females based in care, domestic and administration roles. However, there are higher levels of males in the upper quartile compared to the lower quartiles. The greater proportion of male workers to female workers at middle management and senior level positions creates a gender pay gap.

Supporting Statement

Nazareth Care Charitable Trust aims to continue the progression in reducing the gap and further continues to be a fair and progressive employer and is committed to tackling inequality and diversity.

Further to introducing a restructure in April 2021 and encouraging men to access entry level positions and women equal access to senior positions, the gap has reduced. The organisation strives to build on the commitment to reducing the gap.

Personal development is encouraged organisation wide to support succession development.

The organisation continues to review flexible working for male and female workers in line with the flexible working policy.

Reviews of the pay practices are being carried out with the aim to be above national living wage for our workers who work tirelessly in the sector.
